

Worshipping the One True God!

#3040 0212 23A

We are on earth for one purpose—to worship the one true God of the universe—The Creator of everything! *Isaiah 45:18* “For thus saith the LORD that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the LORD; and there is none else.”

There are various religions in the world that worship various gods—but there is only *One True God*—the One of the Bible. The three main religions in the world—*Christianity*, *Judaism*, and *Islam*—believe in one God. There is *Hinduism* that believes in many gods; *Mormonism* teaches the deification of its followers; and *Buddhism* does not have a supreme being, but its followers can attain enlightenment—nirvana or paradise by good works.

With many *different* religions—we know that not *all* of them can be right. We must know which one teaches the worship of the *One True God*. The only Book that contains accurate information and eternal truth is the Bible—it stands alone. It was written over 1,600 years by more than 40 writers from all walks of life—fishermen; politicians; generals; kings; and shepherds—and from 3 different continents in 3 different languages.

Although writing on hundreds of subjects, they wrote in agreement and harmony—during peacetime and war. Nevertheless, the Bible contains the truth from the One True God as its message originated from the same source—being inspired by the Holy Spirit. God chose 40 different individuals to write the Bible—and it stands the test of time.

The Bible details historical events, so its truthfulness and accuracy can be verified like any historical document. Through both archaeological discoveries and other writings, the historical accounts of the Bible have been proven accurate and true.

A noted scholar with the Australian Institute of Archaeology wrote: *I know of no finding in archaeology that is properly confirmed which is in opposition to the Scriptures. The Bible is the most accurate history textbook the world has ever seen,* unquote.

Even scientists *now* believe that the universe had a beginning, but they will not acknowledge the *One True God* who created it—even though the evidence is all around and is more than sufficient to prove a Creator of this magnificent universe.

A French philosopher stated: *I would rather live my life as if there is a God and die to find out there isn't; than live my life as if there isn't and die to find out there is!* unquote. Since we will all continue *forever* in one of two places, it is crucial that we know *how* to end at the right place. This right place is explained in only one Book—a Book that teaches the worship of the *One True God*.

The Bible has the information explaining what happens after we pass from this life. There is an Italian proverb that says: *When the game of chess is over, the king and pawn go into the same box.* Rich or poor; educated or not—everyone is heading to an eternity in one of two places—to destinations that are vastly *different* in environment but *identical* in length—an eternity!

When a *clue* answers a *question*, it can lead in a certain direction. It will eliminate other possibilities and narrow down the choices until we can find the *right* answer. Seeing the *evidence* of creation—like a building has a *builder*; a cell phone a *designer*; or a painting was done by an artist. Looking around we see *creation*, *design*, and *order*. The precise nature of the universe itself is

convincing evidence of a Creator, Designer, and Orderer.

The huge size of the Earth and its corresponding gravity holds a thin layer of nitrogen and oxygen gases extending 50 miles above the surface—therefore we know this is by design. If the Earth were *smaller*, an atmosphere would not be possible—like Mercury. If Earth were *larger*, its atmosphere would contain free hydrogen—like Jupiter. Earth is the only planet with an atmosphere of the right mixture of gases to sustain plant, animal, and human life—all by intelligent design.

The Earth is the right distance from the sun—with temperatures from about -30 degrees Fahrenheit to +120 degrees Fahrenheit. If it was any further away from the sun, everyone would freeze; and any closer everything would burn up. Even a fractional variance in the Earth's position to the sun would make human life impossible.

The Earth maintains this perfect distance from the sun while it rotates around it at a speed of nearly 67,000 mph. It also rotates on its axis allowing the surface of the Earth to be properly warmed and cooled every day. None of this is by accident but by design!

Our moon is the correct size and distance from the Earth for its gravitational pull on the earth. The moon creates important ocean tides, currents, and movement so ocean waters do not stagnate, and yet our massive oceans are restrained from spilling over the continents.

No living thing can survive without Water—a substance that is colorless, odorless, and tasteless. It has unusually high boiling and freezing points and allows us to live in an environment of fluctuating temperatures, while keeping our body at 98.6 degrees. Two-thirds of our body is water.

Water has unique surface *tension*—it can flow upward in plants against gravity bringing life-giving water and nutrients to the top of the tallest trees. Water freezes from the top down so fish can

live in the winter. None of this is by accident or evolution—but there is the *One True God* who designed it all and made life possible. Job 33:4 “*The Spirit of God hath made me, and the breath of the Almighty hath given me life.*”

97% of the Earth’s water is in the oceans, but there is a system designed that removes salt and then distributes fresh water throughout the globe. Evaporation takes up the ocean waters, leaving the salt and forming clouds, which are easily moved by the wind to disperse water over the land to benefit vegetation, animals, and human beings. It is a system of *distillation* and *supply* that sustains life.

The human brain can process huge amounts of information—it takes in all the colors and objects we see; the temperature; the pressure of our feet against the floor; the sounds heard, and the texture of things touched. The brain processes our emotions, thoughts, and memories—while also keeping track of body functions like breathing, eye movement, hunger, and thirst.

The human brain processes over a million messages every second. It considers the importance of all this data and filters out the unimportant. This screening function allows us to focus on the important and to operate effectively in the world. The ability to reason, our feelings; the capability to think, to plan, and to take action, are all functions of the brain designed by God to operate that way.

The eye is extremely complicated with millions of cells that respond to light and sends messages to the brain by the optic nerve after being converted to electric pulses. The eye can see color, contrast, and depth, which allows us to see pictures. There are three separate sub-systems of the eye, yet they interpret up to 1.5 million *pulse-messages* every millisecond!

There is enough information in the DNA code of a single human cell to store all 30 volumes of the Encyclopedia Britannica many times over. A 40GB hard drive was once considered advanced

technology, but a pinhead of DNA could hold 100 million times *more* information.

The human body has such complexity that only *One True God* could have designed it. As King David wrote Psalm 139:14 “*I will praise thee; for I am fearfully and wonderfully made: marvellous are thy works; and that my soul knoweth right well.*”

A past President once stated: *I can see how it might be possible for a man to look down upon the earth and be an atheist, but I cannot conceive how he could look up into the heavens and say there is no God* unquote.

In disputing evolution—there is no such thing as *macroevolution*—which is one kind of lifeform evolving into another kind of lifeform. The theory of evolution is the lie that is said so often, printed in school textbooks so much, and repeated so many times that most people think it is true—but that doesn’t *make* it true. There must be *evidence* to back it up, and to this day that evidence is still lacking.

Even a noted evolutionist had to admit: *To suppose that the eye, with all its incredible ability for adjusting the focus to different distances; for admitting different amounts of light; and for the correction of spherical and chromatic variations, could have been formed by natural selection, seems, I must confess, absurd to the highest degree.*

Evolutionists admit that millions of *missing links*—would have to be discovered in the fossil record to prove their theory of evolution—or prove that all species had evolved by *chance mutation* into new species. Yet despite hundreds of millions of dollars spent on searching for fossils worldwide for more than a century, scientists have failed to locate a single missing link out of the millions of fossils that exist.

Science once thought that the earth was flat, but the Bible states that the earth is a sphere. Isaiah 40:22 “*It is God who sits above the circle of the*

earth.” The Bible says the earth floats in space with nothing holding it up—and modern space exploration has shown *that* to be true. Job 26:7 “*He stretches out the north over empty space; He hangs the earth on nothing.*”

The Bible states that the Earth is made up of invisible elements—and with the discovery of atoms, *that* has been proven true. Hebrews 11:3 “*By faith we understand that the entire universe was formed at God’s command, that what we now see did not come from anything that can be seen.*”

Science also thought at one time that air was weightless, but it has been proven to definitely have weight—something the Bible knew all along. Job 28:25 “*To make the weight for the winds; and he weigheth the waters by measure.*”

Even though our eyes can only see a few thousand stars during a clear night sky, the Bible states that the stars are indeed innumerable—Jeremiah 33:22 “*As the stars cannot be counted and the sand on the seashores cannot be measured, so I will multiply the descendants of David, my servant.*”

The Word of God is completely *accurate* and totally *true* concerning all of its statements, doctrine, and teaching. Modern telescope technology has been discovering new stars and galaxies in our universe—the *One True God* says He has a name for every star!

Deuteronomy 4:39 “*Know therefore this day, and consider it in thine heart, that the LORD he is God in heaven above, and upon the earth beneath: there is none else.*” We are here on earth to worship the *One True God!*
